## AFTER LAX CHRISTIANS.

PERSET CITY PASTORS ORGANIER FOR HOUSE-TO-HOUSE WORK.

Wenthen to be Neglected for a Time While Careless Believers are Found and Brought Under Gospel Influences. The restors of the Protestant churches in lever City have decided to turn their attento the heath n at home and let the esthen abroad look out for themselves for a while. At a recent meeting of the pastors the abject was discussed, and it was decided that pere was a very large proportion of Jersey Church if a proper and energetic effort was side. A few weeks ago the Rev. R. Wick, a sent acquisition to the local ministry, scelved the idea that there was a fine sid for missionary work in Jersey City. There per numbers of persons who never attended h, not because they had any objection to sizious services but because they were inat and careless. Mr. Wick thought this dass of people could be reached by proper effort and he broached the subject to his fellow-workers. His associates took up the idea and Mr. Wick was designated to formulate a plan of operation. The plan is now completed and operations will be begun at once.

The city has been divided into five districts. such in charge of a pastor. Commencing in the southern part of the city, the first district will embrace all the territory formerly known

mech in charge of a pastor. Commencing in the southern part of the city, the first district will embrace all the territory formerly known as Greenville. It will be in charge of Pastor Brues of the Reformed Church. The second glaticity will take in all of the Heights lying district will take in all of the Heights lying site were the Greenville line and the Pennasivasia Railroad Unick. The Rev. Dr. Cornelius interest of the Hergen Reformed Church will have charge of it. The third district adoins the second, and comprises all of the Heights north of the Fennsylvania Railroad to the West Hoboken line. It is the Regist in extent of territory, but not so thick-ry cominted as some of the others. The Rev. Jr. Mollinn. Pastor of the Summit Avenue Bartist Church, will have charge of the evange-lists in this district. The two remaining districts comprise all of lower Jersey City. The fourth is south of the Pennsylvania Railroad, and the fifth north of it. The Rev. Mr. Snodgrass of the liceling M. E. Church and the law charge of the work may be districted.

The pastors in charge of the work will select lay evangelists from the different churches, and who will make a house-to-house canvase, and who will make a house-to-house canvase, and who will make a house-to-house canvase, and wast church they attend. Where it is lowed that any or all the members of a family are not church members or do not attend any church, the or angelists will courteously but extractly endeavor to point out to them the error of their ways. There is to be 30 sattempt at presenting from other falls. The mi-sionaries will rry only to persuade these who do not go to church that they ought to go to arother church than the one in which they steed one of the ways. Hew a Vermont Parmer Moved Mousehold Goods and Live Stock to Connections. SHELTON, Conn., April 13.-When D. P. Loveland of northern Vermont purchased a farm in this town recently a serious problem presented itself to him. He had a houseful of goods and somelive stock. To sell them meant a sacrifee to him, so he set his Yankee ingenuity t work to see how he could move his stuff to his expense. Last week he arrived here, and this space. Last week he arrived here, and this is how he did it. He went to the station agent in his town and chartered the largest and longest tox car to be rad. Then he loaded his peds into it. These consisted of all his household goods, one wagon, a plow and horse rake. 500 younds of butter, fifty brahels of potatoes, two barrels of butwheat, three horses, five cows, two pigs, slaves sheep, sixy chickens, and three turkeys, it putting up partitions and making a loft over the heads of the cows and horses for the smaller animals and poultry, he got his live stock ato less than one-third of the car. Then he began at the other end, and packed in his household goods, taking his wagon and horse take asart for the sake of compouness. These occupied nearly half of the car. Then he slung a lammest from the roof of the car, put in a slove, running the pips out of the door, and prepared to accompany the goods himself. He put in a bare of hay and some grain, and a stock of canned goods, enough to last him for a west. If read and meat he purchased wherefer the train stopped long enough. The trip occusied he days, and curring that time Mr. Loveland occupied the car with his effects a bina e and inanimate, and says he enjoyed the trin.

His live stock came out of their cramped quarters in good condition. The horses are sow doing the carm work and the spring pogning, the cows are furnishing excellent mit, the chekons are laying eggs at a great rat, the sheep a e growing fat on the much beits browsing they find here, and the pigs seen to enjoy the cooling qualities of Consectent much as well as that of Vermont.

Boston, April 13.—The Jefferson dinner of the Young Men's Democratic Club of Massa chassetts was held this evening at the Amerisan House, with over 200 Democrats from all parts of the State in attendance. Among se present were Congressman McMillin. of Tennessee, Gov. Russell, Congressman Joseph H. O'Neil Mayor Matthews, the Hon. Sherman Hose, the Hon. Josiah Quincy, the Hon. J. W. Corcoran, the Hon. H. W. Swift, Col. Paabody of the Governor's staff, Harvey N. Collison and

of the Governor's stall, Harvey R. Common withers.

Congressman McMillin of Tennossee made the principal speech of the evening. He devoted the greater part of his remarks to an arraignment of the last Congress, laying great spread on its lavish expenditure of money, which be characterized as profligacy and extravagance. He sharply criticised Speaker Reed's rulings, and handled the McKinley bill without gloves.

PREMIER DI BUDINI TALKA Ma Beseribes the Attitude of Italy To ward the Brothand.

Boms, April 18.-Premier di Rudini, in interview to-day in regard to the Dreibund, held that the renewal of the triple alliance was of secondary importance as compared with a constant agreement with England. On many occasions, said the Premier, the policy of the Dreibund harmonized perfectly with reasons, had never adhered to the Dreibund treaty. Italy's renewal of her contract with the alliance depended on the general situation in Europe, which was now changing every

It was difficult to imagine that England and Italy would remain passive while war was be-ing waged by Russia and France against Gernany and Austria, even if the Dreibund did not exist. Italy might find it entirely to her interest to range herself on the side of Great Britain should Russia refrain from interfering Britain should Russia refrain from interfering in the affairs of the other rowers, thus securing the absolute neutrality of Great Britain. Italy would not act except under the contingencies provided for in the Dreibund Convention. If Austria attacked Russia or Germany declared war with France their action would not imply that Italy was to join in the movement. By the terms of the contract she was entitled to act as a neutral nation, and to remain so. The case was different if any one of the contracting powers was made the object of attack.

the contracting powers was made the object of attack.

Premier di Rudini declaued he was convinced that France, despite her excessive armaments, would never alone wage a war of aggression while the Dreibund continued to act as the asfeguard of Enjoye. In view of the prevailing temper in France, it was perfectly idle to discuss the question of a dissolution of the Dreibund. Neither Austria nor Germany dreamt of making an attack.

RIOT AT BRADFORD, ENGLAND. Soldiers Ald the Police to Disperse the

LONDON, April 18.—Ten thousand of the strikng weavers at Bradford assembled at that place to-day for the purpose of protesting against the action of the municipal authorities in forbidding the meeting which the strikers

The police vainly tried to disperse the gathering, but their repeated charges on the crowd proved futile. Matters finally assumed such a shape that the authorities determined to take decisive action, and after the strikers had for the last time been ordered to disperse and had refused, the riot set was read and the military were then summoned.

The soldiers on their arrival at the scene The soldiers on their arrival at the scene joined forces with the police, and a combined charge was made upon the ranks of the stubborn strikers. A flerce struggle easued, but the strikers were unable to resist the increased force and were compelled to retreat before the bavonets and batons.

The police used their batons vory freely, and many of the strikers were injured. Reversi of the police were also hurt during the fight. The suthorities succeeded in placing seven of the ringleaders under arrest. It is probable that the strikers will attempt to hold another meeting to-morrow, and that the scenes witnessed to-day will be renewed.

M. A., Mary M., beloved daughter of the late Matthew H. and Mary Ryan, on Saturday, April 11, 1801. Tons of Ammonia.

Every year 250,000 pounds of ammonia are used by one company in the manufacture of their baking powder, still greater quantities of ammoniated alum are probably used in the various alum powders, and all are palmed off as "absolutely pure." What then is to be done?

Settle for yourself whether your baking powder is pure or not by making the following

Housekeeper's Test.

(Make the test; it takes but a moment.)

Mix one heaping teaspoonful of baking powder with one spoonful of water in a tin cup; boil thoroughly for a few moments, stir to prevent burning, and if ammonia is present you can smell it in the rising steam. As baking powder, when first thrown into the water, will effervesce, do not mistake bubbling for boiling.

The Cleveland Baking Powder Company believes in progress, believes the consumer has a right to know what he is putting into his stomach, and they publish on the label everything used in their powder, and welcome every test that can be made, for they know
